Dennis and Will, We are readying the documents for our Oregon CZARA decision. I wanted to share with you the near final drafts of both the Federal Register Notice and the decision letter to get your take on tone, primarily, but also content in terms of how much to foreshadow the future. At this point, we're thinking, Dennis that the Federal Register Notice would be signed by you and Russell Callender, for NOAA. (The proposed Federal Register Notice had been signed by Ken, but folks don't feel that's necessary for the final given that you are the decision maker for EPA.) The decision letter will be signed by you, Dennis, and Jeff Payne for NOAA.

Let us know if the tone and content conform with your expectations in light of the communications you've had with the State.

Thank you.
